To Whom It May Concern:

I write this letter in recommendation of MJS Woodworking. I had the pleasure of working with Jerry Percoco on the renovation of our kitchen in the summer of 2014. I can recommend him highly without reservation.

Throughout the course of the renovation, Jerry was a consummate professional. He brought great ideas. He was absolutely clear on the time frame and the cost of our project.

Our job was done with care and precision. He is a very gifted woodcrafter and the quality of the and the craftsmanship was amazing.

In addition, Jerry and his crew were extremely clean and tidy in the workplace. Jerry delivered everything that he promised us.
